## DESCRIPTION:

33' Hans Christian Sailboat. Same owner for the last 20 years. Year built: 1986. Flag of Registry: USA. State: Florida.

Hans Christian 33 T "Illusions" is a well-presented vessel and it ready to cruise anywhere. The HC33T features luxury accommodations for an affordable blue water cruiser.

The cabin features a head, sink with vanity mirror and full stall shower, a pullman berth. The saloon is functional and well thought out. It also has a dedicated nav station, comfortable central saloon, dinette with seating for five, functional and sea safe galley. The kitchen has a double stainless-steel sink and the stove is gimballed. The details on this boat stand up to tradition characteristics of what a sailboat should be. The craftsmanship in this boat is obvious and can be appreciated in the interior wood work. Storage and drawers also show the high-quality wood work. The rich tones of the woods are welcoming. All edges are rounded, so no sharp edges. The tables have a rim around the edge, so things won't slide off. The large bowsprit supports the headsail, leaving room on the bow for the staysail. The hull features a long full keel with a cut-away forefoot and a fully protected prop and rudder. The full keel makes the boat stronger and steadier. Also helps the boat track better.

- Designer: Harwood Ives
- Hull Material: Fiberglass
- 33HP Engine: Yanmar Diesel
- Generator: Northern Lights

#### **Accommodations:**

When entering the yacht, the extensive use of solid Burmese teak is immediately appreciated. The rich tones of the woods are welcoming. The forward saloon is functional and well thought out. It has a dedicated nav station, comfortable central saloon with a sofa that converts into a queen size bed, dinette with seating for five, functional and sea safe galley. The kitchen has marble counters, a double stainless-steel sink and the propane stove (with tank and regulator) is gimballed. The cabin features a head, sink with vanity mirror and full stall shower. A comfortable pullman berth for 2 people. Storage and drawers also show the high-quality wood work. All edges are rounded, so no sharp edges. The tables have a rim around the edge, so things won't slide off.

The details on this boat stand up to tradition characteristics of what a sailboat should be.
